

Press Release

Luxembourg, December 23th 2015

International investment position at the end of September 2015

Compared to the second quarter of 2015, Luxembourg's external financial assets increased by 606 billion euros (+7%) to reach 9 323 billion euros at the end of the third quarter of 2015. External financial liabilities increased by 598 billion euros and reached 9 311 billion euros at the end of September 2015. Luxembourg's net international investment position, which corresponds to the difference between external financial assets and liabilities, thus increased by 8 billion euros and reached 12 billion euros at the end of the third quarter of 2015 compared to 4 billion euros at the end of the second quarter of 2015. This improvement of the net international investment position is linked to positive revaluation results.
