## Interest rates

The Banque centrale du Luxembourg (BCL) informs that, based on preliminary data, the main interest rates applied by Luxembourg's credit institutions to euro area households and non-financial corporations (NFCs) for their loan and deposit operations have on average evolved as follows in February 2020.

### **Representative interest rates on new contracts<sup>1</sup> – loans and deposits – concluded with households**

The variable<sup>2</sup> interest rate on mortgage loans granted to households has decreased by 2 basis points to reach 1.39% in February 2020 whereas the volume of these newly granted loans has increased by 61 million euros to reach 251 million euros. On a yearly basis, the interest rate has decreased by 14 basis points and the volume of newly granted loans has increased by 42 million euros.

The fixed<sup>3</sup> interest rate on mortgage loans granted to households has remained broadly stable on a monthly basis to reach 1.38% in February 2020. The volume of these newly granted loans has decreased by 30 million euros on a monthly basis and has consequently amounted to 411 million euros during the last reference period. On a yearly basis, this interest rate has decreased by 43 basis points whereas the volume of newly granted loans has increased by 133 million euros.

1 New contracts refer to any new agreement concluded between the household or the non-financial corporation and the reporting agent. New contracts include all financial contracts which mention for the first time the interest rate pertaining to the deposit or credit and all renegotiations of existing deposits or credits.

2 Variable interest rate or rate with an initial fixation period inferior or equal to 1 year.

3 Fixed interest rate weighted by the amounts of contracts for all mortgage loans granted, whatever the initial rate fixation period (above 1 year). This series has been published by the BCL since February 2009 only for methodological reasons linked to the identification of reporting agents.

The interest rate on consumer loans that have an initial fixation period above 1 year and below or equal to 5 years has decreased by 29 basis points on a monthly basis to reach 1.38% in February 2020 whereas the volume of newly granted loans has increased by 36 million euros to reach 82 million euros. It is worth stressing that these developments result from the financing conditions applied during the traditional car festival. On a yearly basis, the interest rate has remained broadly stable whereas the volume of new lending has increased by 4 million euros.

The interest rate on households' fixed-term deposits that have an initial maturity below or equal to 1 year has reached 30 basis points in February 2020 from 29 basis points during the previous month.
