BANQUE CENTRALE DU LUXEMBOURG EUROSYSTÈME

1 Introduction

This compendium groups all the verification rules that apply to report S 2.15 «Transactions and write-offs/write-downs on securitised loans on securitisation vehicles». The instructions relating to data collection are described in the documents Instructions and Report relating to report S 2.15 «Transactions and write-offs/write-downs on securitised loans on securitisation vehicles».

The objective of the present document is to describe the various internal consistency checks for the statistical report S 2.15 «Transactions and write-offs/write-downs on securitised loans on securitisation vehicles».

We should like to stress the importance of the quality of the data transmitted to the BCL and the necessity to submit the data to the verification rules detailed in the technical documentation. Only a rigorous control undertaken during data production will allow to respect the quality requirements as well as the reporting delays. This point is all the more important since the data collected will be checked by the ECB before aggregating it with the data of the other Member states. Any error or important negligence will have harmful repercussions on the reputation of the whole community of the Luxembourg financial institutions.

2 Verification rules

The verification rules are split into two groups, namely those that have a permanent character and those that have a temporary character. As far as concerns the verification rules having a permanent character, we invite the software providers to implement these rules whereas the temporary verification rules are more specifically addressed to the reporting agents. The latter are invited to take into account these rules when preparing the data.

For the time being, report S 2.15 only contains permanent verification rules.

2.1 Permanent verification rules

2.1.1 Internal verification rules for report S 2.15

The following internal verification rules must be applied:

• For line 1-WROWRD, no breakdown is required.

Hence, for this line, the following codes must be used:

- country code «XX»
- currency code «XXX»
- sector code «90000»
- maturity code «I999-999»
- the amount must be positive
- For lines 1-006000, 1-007000 ,1-011020, 1-011040 and 1-011090 and 2-011000, the only breakdown required is for the country:
 - The country code no breakdown «XX» may not be used
 - currency code must be«XXX»
 - sector code must be «90000»
 - maturity code must be «I999-999»
 - the amount can be positive or negative
