

Banque centrale du Luxembourg, member of the Eurosystem, is looking for immediate entrance in its IT Infrastructure section for

NETWORK ADMINISTRATOR (m/f)

Full time (ref.: IT/029/11)

Main tasks and responsibilities:

- Design, implementation and management of networking projects in order to develop and improve BCL's networking infrastructure
- Administration of the existing networking infrastructure of the BCL (LAN, WAN, VPN, routers, switches, etc...)
- Management of the networking security infrastructure of the BCL (firewalls, proxy, IDS/IPS, etc.)
- Adaptation of the networking infrastructure to be compliant with BCL/Eurosystem security specifications as well as to acknowledged security best practices and standards
- Realization and maintenance of adequate documentation of the networking and security infrastructure
- Troubleshooting networking and security infrastructure problems
- Cooperation with the other teams of the section and department in order to fulfill the IT department's business goals.

Qualifications, experience and competencies:

- Master in IT technologies, preferably with specialization in networking technologies
- Several years of experience in designing, implementing and managing networking infrastructures
- Good comprehension of Cisco network equipment and network management software (HP Openview, Ciscoworks, etc...)
- Good understanding of network security equipment (Firewall, proxy, IDS/IPS, etc...)
- Managing experience of messaging tools will be considered as an advantage
- Knowledge of Windows and Unix environments as well as scripting skills will be considered as an advantage
- Acceptance to be on duty as well as working off-hours and week-ends
- Strong communication skills in the usual languages in Luxembourg are a precondition. Very good command of English.
