Compendium of verification rules for report S 2.17 «Transactions of financial companies»

Banque centrale du Luxembourg

Contents

1 Introduction

This compendium groups all the verification rules that apply to report S 2.17 «Transactions of financial companies». The instructions relating to data collection are described in the documents Instructions and Report relating to report S 2.17 «Transactions of financial companies».

The objective of the present document is to describe the various internal consistency checks for the statistical report S 2.17 «Transactions of financial companies».

We should like to stress the importance of the quality of the data transmitted to the BCL and the necessity to submit the data to the verification rules detailed in the technical documentation. Only a rigorous control undertaken during data production will allow respecting the quality requirements as well as the reporting delays.

2 Verification rules

The verification rules are split into two groups, namely those that have a permanent character and those that have a temporary character. As far as concerns the verification rules having a permanent character, we invite the software providers to implement these rules whereas the temporary verification rules are more specifically addressed to the reporting agents. The latter are invited to take into account these rules when preparing the data.

For the time being, report S 2.17 only contains permanent verification rules.

2.1 Permanent verification rules

2.1.1 Internal verification rules for report S 2.17

The following internal verification rules must be applied:

- For the lines 1-006010, 1-006999, 1-007000 and 2-011000:
